Expected Result:	the section name should not be edited since the user clicked cancel		

Description

When the user edits a sections name the chooses back button, the name is edited till the user refreshes the page

steps to duplicate:
1- Go to price monitoring module / ☐☐☐ ☐☐☐☐☐ screen
2- choose to edit the name of any section, and edit the name (add number 1 to the end)
3- click the cancel action, and check the name of the section

the section name is edited although the user clicked the cancel action, the edit is removed when the user refreshes the page
