Expected Result:	the number of failures should be 2 as the document was failed to be uploaded two times		
Description			
upload failure column does not count the times user has failed to upload the document			
steps to duplicate:			
1- Go to upload CSV page and upload a corrupted csv file to the system			
2- close the error message displayed and re-upload the document again			
3- upload a valid csv document			
4- go to page (البيانات التي تم تحميلها بنجاح والبيانات التي لم يتم تحميلها)			
5- check the counts displayed in the failure columns			
the number of failures should be 2 as the document was failed to be uploaded two times, meanwhile the column shows 0
