Step_Description:		URL:	
Pre_Conditions:		Test Case ID:	
Expected Result:	the user should be able to go to another screen without the error triggering		
Description			
if the user uploads a file of type that is not CSV in CSV File Upload Status screen, an error keeps triggering that stops the user from going to another screen			
steps to duplicate:			
1- go to upload CSV screen			
2- upload a PNG image then wait			
3- an error is displayed indicating that the file should be CSV			
4- try to go to another screen			
the user should be able to go to another screen without the error triggering, meanwhile the error keeps triggering on every action until the user uploads a file of a correct type

the error log for that scenarios is displayed empty

#4 - 08/19/2019 11:43 PM - Tareq Abuhamra

- Status changed from Open to Fixed

- Assignee changed from Tareq Abuhamra to Israa Naser

Upload CSV file screen will be added in the Online application in a standalone screen, here it's for testing only.

- Status changed from Fixed to Closed

Closed as Rejected,
based on Tariq's comment above
as the upload csv screen will be implemented alon in a separate screen for the user with no tabs to trigger the error over and over
