- % Done changed from 0 to 80

- Co-Workers Saed Al Qudah added

Verbal Feedback was given to Zaid an all of the cases were handled.

The only feedback remaining is the Job Title for the employee to be reflected on the User Card in the Intranet Home Page.

And we can make as an enhancement the alignment of the fields when editing the profile.

The Test script has been written and all of the other cases are tested and verified.

#6 - 11/12/2019 07:37 PM - Zaid Shakboua

- Assignee changed from Zaid Shakboua to Yazan Awad

"Job Title for the employee" issue solved, it is actually a complex value consist of the position and the department. Also, the employee display name can be changed, but this will not change the actual username, to handle this, i change the user profile card to display for the actual name and the user display name in form "Display Name (username)" when their values do not match.

Note: nothing will be displayed if the position and department are empty.
