7- □□□□ □ □□□□□ □□□□□
> this is probably a missing data from the DB to where the user has searched
> when the data searched has no price values in the DB, No average is displayed in the screen
> Abed can we add a warning message to indicate having no data ?

> one more item was reported by Osama verbally yesterday,
that we need to draw a small arrow pointing up or down next to the selling price if the sell price is higher or lower than the Union Price
