Expected Result:	as mentioned in the description	**Test Case ID:**	

Description

When the user select a job and add a work permission for it the number of available work permissions should decreased by 1 and if the number of available work permissions is zero the user should not be able to add a work permission for that job.

Steps to reproduce:

1.Login with Portal user.
2.From navigation select work permission.
3.Select a user, fill the required details and click on approve.
4.Observe the result.

Please find the attached snapshot for more information.
